

Forklift Electrical Parts

Forklift Electrical Part - Forklifts along with various lift trucks may have specific labels used in certain hazardous locations. The label indicates that this specific model of forklift meets the minimum standards of ANSI/UL 553 for electric forklifts or ANSI/UL 558 for internal combustion engine lift trucks.

The use for labels intended for lift lift trucks could be found in National Fire Protection Association NFPA 505 - Powered Industrial trucks including: Maintenance and Operation, Type Designations, and Areas of Use. Consult your local insurance provider and Fire Marshall for further info on the permitted uses of industrial powered forklifts in your application.

If the particular lift truck satisfies the outlined criteria, labels may be placed. A labeled lift truck will show the type of designation located on the nameplate and will have a properly corresponding label attached.
